* Revenue reported for the Q3FY18 is exclusive of GST (implemented in India w.e.f. 1st July 2017) recovery; in the pre GST regime however, the excise duty recovery is included in the revenue. Hence, total income from operations has been made comparable by netting off excise duty recovery, accordingly margins have been restated for comparability.

Consolidated Performance Highlights:

- Revenue net of indirect tax (GST/ Excise) recovery grew 1.2% during the quarter and 6.3% during the 9 months period as compared to the reported -2.0% and 3.7% respectively. Further, in constant currency terms, the quarter revenue growth was at 1.8% for the quarter and 9.8% for the 9 months.
- The growth has been muted due to continued uncertainty and supply chain re-balancing by customers in India following GST rollout as well GST correction in November 2017. Europe revenue is impacted by customer off take issues and delay in commercialization of new customers in Europe.
- EBIDTA margin and PAT growth for the quarter have been healthy at 19.5% and 18.6% respectively.

- Net Debt as at December 17 end stood at INR 5996 Million, lower compared to INR 7035 Million at March 17 end and INR 6653 Million at September 17 end, a reduction of INR 1039 Million and INR 657 Million respectively.

EUROPE

(INR million)

Particulars	Q3FY18	Q3FY17	% change	9MFY18	9MFY17	% change
Revenue	1188	1272	-6.6%	3684	2971	24.0%

- EDG EBIDTA grew by 17.2% y-o-y in constant currency and margin is comparable to the rest of Europe, despite de-growth in quarter revenue y-o-y of 10.8% in constant currency.
- Europe continued to present challenge in terms of growth with both existing and newly developed customers. Overall revenue in constant currency declined by 12.5% in this quarter, consequently EBIT has been adversely impacted.

- The region continues to focus on new project delivery and sales activity with a view to growing revenue going forward.

Overall:

The quarter has been disappointing in terms of topline growth. While EAP, AMESA seem to indicate a recovery as regards growth, Europe and Americas need to step up. Colombia recovery measures and new customer acquisition in US is expected to help realize this. Europe has been a bigger disappointment for the year and corrective measures are underway to address the challenges in Europe. Even while addressing the topline growth, we are doing everything to sustain the business health in terms of cost, efficiencies and margins. Additionally, we are actively promoting new innovations like GML and Mystik with a view to buffering the topline for future.
